## **POCAN STATEMENT ON BUDGET SPECIAL SESSION**

Madison – State Representative Mark Pocan (D-Madison) issued the following statement today in response to Governor Doyle’s call of a special session to finish the state budget on October 15, 2007:

“I applaud the Governor for breaking the budget log jam by calling a special session of the legislature to act on the state budget. This budget impasse has gone on long enough. The people of Wisconsin want a budget, not more gimmicks, coordinated television ads and rallies run by fringe front groups. It is time for the legislature to get its act together. I look forward to a productive special session and the passage of a state budget that reflects Wisconsin's values.”
