**AMERICAN RECOVERY AND REINVESTMENT PLAN:  
JOB IMPACT BY CONGRESSIONAL DISTRICT**

The American Recovery and Reinvestment Act is a nationwide effort to create jobs, jumpstart growth and transform our economy to compete in the 21<sup>st</sup> century. The compromise package of \$789 billion will create or save 3.5 million jobs over the next two years. Jobs created will be in a range of industries from clean energy to health care, with over 90% in the private sector.<sup>1</sup>

The table below outlines the impact of the American Recovery and Reinvestment Act compromise package on employment by congressional district. The estimates are derived from an analysis of the overall employment impact of the American Recovery and Reinvestment Act conducted by Christina Romer, Chair of the Council of Economic Advisers, and Jared Bernstein, Chief Economist for the Vice President, and detailed estimates of the working age population, employment, and industrial composition by district.
