

Slaughter Fee For Animal Health and Meat Safety Inspections:

Specify that DATCP may not utilize a per-head slaughter fee when establishing a fee. It allows the agency to work with the industry, but precludes the per-head fee as a funding mechanism. (See page 108, item 15.)

Concentrated Animal Feeding Operations- Wastewater Permit Fees:

Eliminate JFC language granting DNR rule making authority to establish new annual fees for CAFOs based on the number of animals units owned by the operation. Maintain JFC language increasing the current wastewater permit fee for CAFOs from \$250 to \$345 but delete JFC language creating a five year \$1200 application fee. (See page 638, item 14.)

County Land Conservation Staff:

Allow one time lapse in SEG funding for County Land Conservation staff. (See page 118, item 24.)
