“THE BIG GAME” GIVES WISCONSIN A CHOICE

WALL RELEASES SUPER YOUTUBE AD IN TIME FOR “THE BIG GAME”

[Middleton, WI] – What happens when politicians try something over and over again, expecting a different result? Wisconsin workers have had to live with 18 years of career politician Russ Feingold doing exactly that.

But it doesn't have to be that way. Just in time for the “Big Game,” United States Senate Candidate Terrence Wall is releasing a YouTube video reminding Wisconsin voters that they have a choice this year. Wall says it's time Wisconsin sent a real job creator to Washington.

“What has Russ Feingold offered? For the last year, Feingold has voted to raise our nation's debt to historic levels, force a big-government run health care takeover full of sweetheart, backroom deals and a “stimulus” bill that only stimulated special interest groups.” Wall said, “I've been creating good paying jobs right here in Wisconsin for 20 years

On Friday, the Labor Department reported that employers “unexpectedly” cut 20,000 more jobs in January. The Department also issued revised data showing 150,000 jobs were lost in December instead of the 85,000 previously reported. While the unemployment number dropped to 9.7%, it was because 366,000 people simply stopped looking for work in January, the Labor Department reported. And the number of long-term unemployed workers, those out of work for at least 27 weeks, rose to 6.3 million.
