**Madison, WI** – NARAL Pro-Choice Wisconsin PAC, the political leader of the reproductive rights movement, today announced its first round of endorsements for the Wisconsin State Legislature.

“We are pleased to offer our support for these tremendous candidates for the Wisconsin State Senate and Assembly,” said Lisa Subeck, Executive Director of NARAL Pro-Choice Wisconsin PAC. “These leaders share our values of freedom, privacy and personal responsibility, and will bring a common-sense, ‘prevention first’ approach to reproductive health policy.”

This past year, Wisconsin made tremendous strides towards protecting women’s reproductive rights with the passage of the Healthy Youth Act and the Prescription Protection and Contraceptive Equity bills.

“The passage of these three critical Prevention First bills shows that elections matter,” said Subeck. “We need to continue to elect candidates who will protect women’s access to birth control, family planning services and legal, safe abortion.”
