Customers First! Coalition Commends Members of the Governor's Task Force on Energy Efficiency and Renewables

The *Customers First!* Coalition (CFC) commends the members of Governor Jim Doyle's Task Force on Energy Efficiency and Renewables for its numerous recommendations on ways to strengthen Wisconsin's economy, reduce consumer energy bills, and improve the environment through stronger efforts toward energy efficiency and renewable energy. CFC is heartened by the year long bipartisan effort of the Task Force to reach consensus on the package of initiatives contained in a final report distributed yesterday.

Representatives of several *Customers First!* Coalition members participated in the Task Force over the last year, including the Citizens Utility Board, Dairyland Power Cooperative, International Brotherhood of Electrical Workers Local 2150, Madison Gas & Electric Company, RENEW Wisconsin, Wisconsin Industrial Energy Group, Wisconsin Merchants Federation, and Wisconsin Public Power Inc.

CFC is a broad-based alliance representing Wisconsin customer, environmental, labor, business and low-income groups, Wisconsin municipal and cooperative utilities and Madison Gas & Electric Company. Since 1996, the coalition has advocated for energy policies in Wisconsin that preserve the state's historically safe, affordable, reliable and environmentally responsible electricity.
