April 7, 2009

TO: Representative Robin Vos
Room 105 West, State Capitol

FROM: Bob Lang, Director

SUBJECT: Non-Fiscal Policy Items Contained Within the Governor's 2009-11 Budget Bill

This office has prepared the attached list of items that are contained within 2009 Assembly Bill 75 (the Governor's 2009-11 budget recommendations). The list is comprised of items that are primarily of a non-fiscal policy nature and not closely related to the state's fiscal programs for the next biennium. Included are the page and item number showing where the provisions are described in the Legislative Fiscal Bureau's summary of the Governor's budget.

Some of the items on the list are marked with an asterisk (*). These items are of a technical nature and do not raise any policy issues. However, because these matters are typically addressed by the Law Revision Committee, they are included on the list.

Putting such a list together always requires some subjective judgment on which items should be identified. Arguments could be made to expand the list beyond what is presented here or to delete some items from it. However, in preparing the attached list, this office applied the same criteria that it has used in previous biennia when identifying provisions of the executive budget bill as non-fiscal policy items.

The criteria used are as follows: (1) generally, the item has no state fiscal effect; (2) if there is a state fiscal effect associated with an item, the policy implications of the provision outweigh any potential fiscal effect; (3) the item has been, or is, the subject of separate, non-budget legislation; (4) the item is one that typically would be reviewed by a standing committee of the Legislature; and (5) the provision could be accomplished without statutory directive, such as reports, studies, and audits. Items that typically are not included on the list are those that: (1) affect state program eligibility; (2) would generally be referred to the Joint Committee on Finance if introduced as separate legislation; and (3) address a reorganization or transfer of state government operations or functions.

There are two provisions of AB 75 which are not included on the list due to their potential fiscal effect. However, they represent significant policy decisions which would normally be the

topic of legislation outside of the budget process and addressed by standing committees of the Legislature.

The first is a series of sentencing modifications under the Department of Corrections. There are six items (#1 thru #6) which begin on page 207 and end on page 216. The items reflect proposed modifications to the state's bifurcated felony sentencing structure. Because the items would affect prison population and potentially costs, they are not on the list, but the policy implications might be more appropriately addressed outside of the budget process.

The second item (page 646, #7) involves the primary enforcement of seat belt laws. This item has been the subject of separate legislation in a number of legislative sessions. If the provision were to be enacted by June 30, 2009, the state could receive up to \$18.1 million in federal funds. Thus, it is not included in the attached list. However, given that the provision has been reviewed outside of the budget process on a number of occasions, it may be beneficial to have appropriate standing committees of the Legislature again address it.
