

**PIERCE ENGINEERS, INC. ANNOUNCES NEW PRESIDENT**  
Structural Engineering Firm Names Randy S. Elliott President & Managing Principal

Milwaukee, Wis., November 15, 2018 – **Pierce Engineers, Inc. (PE)** announces the appointment of Randy S. Elliott, PE, to President and Managing Principal of the Milwaukee/Madison-based consulting structural engineering firm. Elliott previously held the title of Vice President and succeeds founder Richard C. Pierce, PE, SE as President.

“It is an honor to lead this firm and its talented group of professionals into the next chapter of the firm’s future,” said Elliott. “I am excited to oversee our leadership team and continue to best serve our clients and their projects.”

Pierce and Elliott recently completed a Shareholder/Ownership transition that allows Pierce to continue his involvement with **PE** as Chairman of the Corporation’s Board of Directors while allowing Elliott and a team of leaders to direct the firm over future decades. In addition to Elliott, the **PE** leadership team includes: Jill Berenz (Controller), Sarah Frecska, PE, SE (Associate), Eric Feile, PE (Associate), Thomas Hildebrandt, PE (Senior Associate), and Seth Pfeil, PE (Associate).

Elliott has been Managing Partner of Pierce Engineers, Inc. since January 1, 2013, following the merger of **PE** and Structural Dimension Inc., a similar firm founded by Elliott. Pierce will remain involved with **PE**, consulting on structural system selections, cost comparisons, and project troubleshooting while maintaining involvement in Client activities.

Pierce will continue to mentor and help provide direction and consultation to Elliott and the **PE** leadership team. “It has been exciting to have established a single discipline engineering firm in 1991 and lead it through unprecedented growth,” Pierce said. “Randy and I have looked forward to this transition. I am confident he and the team will strongly represent the firm within the industry and maintain the high level of expertise **PE** has established.”

With offices in Milwaukee and Madison, Pierce Engineers, Inc. will continue to support the construction community by providing innovative yet practical structural engineering solutions. The firm specializes in working collaboratively with clients to provide structural solutions driven by functionality and cost efficiency.

**About Pierce Engineers, Inc.**

Pierce Engineers, Inc. is a structural engineering design firm founded by Richard C. Pierce in 1991 and incorporated in 1995. **PE** is headquartered in Milwaukee, Wis with a second location in Madison, Wis. **PE** has grown to a business of 50 professionals performing structural engineering design for a wide range of building types with projects located both regionally and nationally.
