

WisOpinion Poll: Eliminating permits to build on state wetlands

Posted on Friday, Dec 22, 2017

The Legislature is considering legislation would exempt developers from having to get a DNR permit to build on state wetlands, although it would still require that 1.2 acres of wetlands be created for every acre filled.

The bills, SB 600 and AB 547, would also exclude artificial wetlands from state wetland permitting requirements.

Do you support this legislation?
