“Today it was revealed that Wisconsin electrical customers are being asked to foot the bill for 40 years to build a new \$140 million dollar facility to provide electricity for Foxconn. It

wasn't enough for Walker to give Foxconn a \$3,000,000,000 sweetheart deal paid for by Wisconsin taxpayers. Now Foxconn wants Wisconsin ratepayers to cough up another \$140 million from their own wallets. This deal just keeps getting worse and worse. Scott Walker should be ashamed of himself.”
