(Racine, Wisconsin) – November 11, 2017 – Foxconn looks forward to being a part of the Wisconsin community and delivering on the commitments that we have made to the state and the people of Wisconsin. Foxconn is an equal opportunity employer and we are committed to promoting diversity across all of our operations. In line with that pledge, and in support of Governor Scott Walker’s goal of enabling employment of veterans, we will recruit veterans among the new employees we will be hiring for the Wisconsin campus. These employees will be critical to our efforts to create thousands of additional jobs, an extensive supply chain and an 8K+5G ecosystem that will position Wisconsin as a center for high-tech manufacturing. We will announce our recruitment plans and related timetable in the coming months.
