Tomorrow, Saturday, November 11, gubernatorial candidate Andy Gronik will participate in a candidate forum hosted by the Manitowoc, Ozaukee, and Sheboygan County Democratic Parties at the Emil Mazey Hall at Noon. Gronik's stop in Sheboygan is his first since hosting a [successful youth forum in October at Three Sheeps Brewery](#).

"Last month in Sheboygan I invited the architects of Wisconsin's future to a discussion about their vision for the state. We agreed that Wisconsin can be a global leader advancing technologies and applications around food production, fresh water, clean air, and renewable energy to create good-paying jobs and positively transform communities all across the state. That's the kind of smart, innovative, fresh thinking we need right now to improve the lives of working families and create a thriving economy," said Andy Gronik on Friday. "It's clear that we don't need career politicians to gamble away \$3 billion on a hail mary pass to a foreign company when we have the resources right here in Wisconsin to grow our economy. It's time for a change, it's time for new leadership and a new focus on innovative solutions needed to move our state forward. I'm a problem solver who spent his entire career successfully creating innovative solutions in the business world and I'll do the same thing as Governor."
