The Bureau announces the release of report 17-5, [State of Wisconsin FY 2015-16 Single Audit](#)

In FY 2015-16, state agencies administered \$11.6 billion in federal financial assistance. We audited 14 programs that accounted for 48.1 percent of the federal financial assistance administered by state agencies in FY 2015-16. Although we found that state agencies generally complied with federal requirements, we make recommendations to improve the administration of federal programs, including by DHS, DNR, and UW System.
