Steve Marcus will discuss the history of the Sculpture Milwaukee exhibition currently on display on Wisconsin Avenue from O'Donnell Park to Sixth St. As the visionary behind the project, Steve will trace its history and discuss the challenges that needed to be addressed in the course of bringing this unique event to life. He will also describe its potential benefits for Milwaukee in general and specifically downtown and Wisconsin Ave. He will provide us with a virtual tour of the art and describe the organization that was developed to manage the program as well as lessons learned for the future.
