Lunch will be	Madison, WI	Early Bird rate \$60 for Non-
served	53715	Members

Join MITA at the ninth annual global economic forecast conference to look into the future of the global economy!

On-going issues - from the Brexit exit from EU to the new prospects for the US economy under new leadership have unsettled markets and left business and investors nervous.

We know what lies behind - but what lies ahead?

Our keynote speaker, **Michael Gregory**, *Deputy Chief Economist & Head of U.S. Economics with BMO Capital Markets* and one of the leading North America's Economists, will give his perspective of the US economy and growth opportunities. Following Mr. Gregory's address, Mr. **Antonio Mello**, *Academic Director of the Nicholas Center for Corporate Finance and Investment Banking*, will present his perspective on corporate finance and international trade trends in 2018. Mr. Mello has previously been visiting scholar at the European Central Bank, the Federal Reserve Bank of Chicago, and Banco de España. He has also taught at MIT-Sloan, Imperial College, London, the Shanghai Advanced Institute of Finance, London Business School and INSEAD.
