“This is a great day for Racine and Kenosha counties, and the entire state of Wisconsin. Today, we sent a message not just to Foxconn, but every other manufacturer of cutting-edge technology – Wisconsin should be your new home.

“I am proud of the tremendous cooperation between the state and the many local governments and agencies that are involved. It shows what can happen when people work together. The benefits are immense. Most important of those benefits is the thousands of people all across Wisconsin will profit from family supporting jobs because of this project and the legislation passed today.”
