Sensenbrenner Statement on DOJ Investigation of Abortion Giant

Washington, D.C.—Congressman Jim Sensenbrenner (R-WI) offered the following statement after the Department of Justice confirmed its ongoing investigation into the alleged sale of human fetal tissue by a major abortion provider in America:

“It is heartbreaking and disgusting that anyone would profit from sale of innocent unborn human body parts. The Department of Justice is right to open this investigation at the referral of both the Senate Judiciary Committee and the House Select Investigative Panel on Infant Lives.”

In February, **Congressman Sensenbrenner** introduced the Safe RESEARCH Act (H.R. 1203) to prohibit the sale of fetal tissue acquired by abortion. Specifically, the Safe RESEARCH Act amends Section 498A of the Public Health Act to only permit human fetal tissue research to be conducted with tissue obtained as a result of a stillbirth or ectopic pregnancy. The text of the Safe RESEARCH Act is available [here](#).
