Washington, D.C. — U.S. Sen. Ron Johnson (R-Wis.) released the following statement after the Senate passed the Tax Cuts and Jobs Act:

“The number one component of a solution to many of America’s problems is robust economic growth. Passing pro-growth tax reform that allows American business to compete globally is a necessary step. No major piece of legislation is ever perfect, but this bill is a significant improvement over our current tax system. I will remain committed to conducting effective oversight to measure results and provide continuous improvement of our tax code and economy.”
