

Vos, Barca call for bipartisanship as Vos lays out priorities for new session

Posted on Tuesday, Jan 3, 2017

Touting bipartisanship, Speaker Robin Vos said he's looking to build on gains from the last session as he laid out his priorities for the new session today.

Assembly Miority Leader Peter Barca, echoing Vos's calls for setting aside partisan politics, said the Dem agenda for this session closely mirrors the Republican one.

While Barca said he sees "huge challenges" across the state today, he added if both sides of the aisle come together, it'll be a "very productive" session.

Vos and Barca addressed legislators today after representatives who won election in November took the oath of office, including 11 new members.

Vos also stressed small government, promising that "government will not grow on our watch."
