BREAKING: The Trump administration has issued an Executive Order ending subsidies paid to insurance providers, rolling back a vital and necessary part of the Affordable Care Act.

[Tell Trump we won't stand for such blatant disregard for the health and well being of millions of Americans. Add your name.](#)

On Thursday, Donald Trump launched another assault on the Affordable Care Act,

this time cutting federal subsidies that offset costs for low-income Americans and setting off a potential collapse of our healthcare system as we know it.

By cutting these subsidies, Trump is putting insurance companies in a position to increase premiums, which will disproportionately affect Americans who use health insurance the most — senior citizens, children, and people with pre-existing conditions.

This executive order is unnecessary, cruel, and destructive — and continues to show us who Donald Trump really is.

[We need to stand together to show Trump and his administration that we won't stand for such cruelty against the American people. Add your name now.](#)

We can't stand by and watch Trump single-handedly destroy health care and one-sixth of our economy with the stroke of a pen. Enough is enough. The time to speak out is NOW.

[**Add your name to speak out against Trump's executive order now.**](#)

We've saved the ACA before, and we'll do it again.
