Republicans Continue to Lead While Democrats Look to Obstruct Good-Paying, Family-Supporting Jobs

[Madison, WI]— Today Republicans in the Wisconsin State Senate passed legislation in support of Foxconn Technology Group's historic investment that will lead to tens of thousands of jobs in Wisconsin. The Republican Party of Wisconsin released the following statement from Executive Director Mark Morgan:

“Once again, Wisconsin Republicans are leading the way with a transformative job creation effort while Democrats revert to petty political games at the expense of hard-working Wisconsin families. Thanks to the reforms of Governor Scott Walker and Republicans in the Legislature, Foxconn is making a historic investment that will mean tens of thousands of new jobs right here in Wisconsin.”
