Grassroots Activists to Canvass Tomahawk Assemblywoman's District with Door Hangers

MADISON, WI – Americans for Prosperity-Wisconsin (AFP-WI) today announced a grassroots activist campaign asking constituents of State Representative Mary Felzkowski to thank her for her efforts to lower health care costs for Wisconsin families. The free-market policy group's community organizing staff will lead local activists in the Assemblywoman's district to place door hangers and inform Felzkowski's constituents about the benefits of the health care reform ideas she has championed, and to urge her to continue pushing for market-based reforms in health care.

Americans for Prosperity-Wisconsin State Director Eric Bott made the following statement:

“Representative Mary Felzkowski continues to impress our activists by taking on powerful special interests in Madison to lower health care costs for all Wisconsinites. She helped to pass ‘Right-to-Try’ legislation to give terminally ill patients access to potentially life-saving medicine and treatment. She kept faith with Wisconsin families and stood strong against powerful lobbyists with her bill to help low-income families receive dental care. In the future, we hope she’ll continue to push for

direct primary care reform and other ideas to help lower health care costs. The Badger State is leading the way as a model for the nation with high-quality, affordable health care for all and Mary Felzkowski is a big part of the reason why. We thank her for her leadership on these issues and encourage her to keep up the great work.”
