

WisOpinion Poll: Do you support Gov. Scott Walker's child tax credit proposal?

Posted on Thursday, Feb 1, 2018

Scott Walker in his State of the State speech called for a new tax credit of \$100 per child as the gov asked lawmakers to make sure checks show up before students start school this fall.

The plan would cost \$122 million and be covered by the boost in the state's surplus for the 2017-19 budget, which is now projected to be \$385.2 million. That's \$137.5 million more than previously expected in the fall.

Do you support Walker's proposal?
