

# Evers raised \$6 million in pre-election period

Posted on Monday, Oct 29, 2018

Dem gov hopeful Tony Evers raised \$6 million over seven weeks, his campaign said this morning.

Evers campaign said it received more than 48,000 donations during the fall pre-election period, which ran Sept. 1-Oct. 22. But it didn't say how much he spent or how much he had in the bank to close the period.

Evers' full report detailing how he raised the money wasn't yet posted to the Ethics Commission site this morning.

State candidates have to turn in reports detailing activity in the pre-election period by the end of today.
