Governor Walker Joins Gulfstream Aerospace Corporation to Announce 200 New Jobs, \$40 Million Capital Investment in Appleton Facility

APPLETON – Governor Scott Walker joined officials from Gulfstream Aerospace Corporation today as the company announced plans to create approximately 200 new manufacturing and support jobs and invest \$40 million in its Appleton facility. Gulfstream Aerospace Corporation designs, manufactures, and services business jet aircraft.

“We’re here to celebrate Gulfstream’s creation of approximately 200 new jobs and \$40 million capital investment in Appleton, and we thank Gulfstream for its continued commitment to Wisconsin,” said Governor Walker. “The company’s decision to expand right here in the Fox Valley is yet another sign that our state’s economy is strong and we have the best workers in the country. With the lowest unemployment rate since 1999, it’s clear Wisconsin is open for business.”

In addition to the approximately 200 jobs being created by Gulfstream Aerospace Corporation, 13 other northeastern Wisconsin companies announced plans in 2017

to create nearly 1,500 jobs in the region.

More information from Gulfstream Aerospace Corporation:

“The Appleton, Wisconsin, Service Center meets operators’ most advanced maintenance needs. The 315,587-square-foot/29,319-square-meter facility doubles as a completion center for large-cabin Gulfstream aircraft, resulting in a broad range of expertise.”

“Gulfstream Appleton is staffed by more than 800 employees, including more than 350 technicians and master technicians. The site at Appleton International Airport is also home to customer offices and shop and support space.”
