

# Milwaukee Rotary Club

Posted on Saturday, Feb 3, 2018

Tripoli Shrine Center,  
Milwaukee.

Guest speaker is the Harbor District's Lilith Fowler.

The City of Milwaukee and Harbor District, Inc. recently completed a "Water and Land Use Plan" for the Harbor District, an area including the Port of Milwaukee and surrounding land and waterways. The culmination of two years of work and extensive public input, the plan will guide the transformation of this area from its past as exclusively an industrial port, to a mixed-use, publicly accessible, modern working waterfront that supports Milwaukee's "Water-Centric City" goals.

Rotary meetings are open to members, invited guests and media.
