

# Milwaukee Rotary Club

Posted on Tuesday, May 29, 2018

Milwaukee County War Memorial Center,  
750 N. Lincoln Memorial Drive,  
Milwaukee.

Engineers Without Borders USA builds a better world through engineering projects that empower communities to meet their basic human needs. Then, highly skilled volunteers work with communities to find appropriate solutions for their infrastructure needs. Rotarian Mike Paddock of the local chapter of Engineers without Borders will talk about the synergies created by their partnership with Rotary and the great projects that we have been able to accomplish together.

Rotary meetings are open to members, invited guests and media.
