“We applaud Meteor Timber for standing up for their project and standing by the merits of their initial application by filing an appeal today. The appeals process is a long and arduous one, but Meteor Timber knows that the local community supports this beneficial project that has already been approved by the U.S. Army Corps of Engineers. This \$75 million community investment will be a boon to the local economy and the environment. The facts will bear themselves out and we feel the right outcome will finally be reached during this appeal process.”
