Washington, D.C. – This afternoon, outgoing Wisconsin Governor Scott Walker signed legislation preventing the duly elected incoming Democratic Governor and Attorney General from withdrawing from the deeply unpopular [Walker-Schimel-Trump assault](#) on the Affordable Care Act and pre-existing conditions in federal court. In response, Brad Woodhouse, executive director of Protect Our Care, released the following statement:

“Scott Walker and Wisconsin Republicans don’t care about protecting their constituents’ health care, the rule of law, or the will of the people. After being trounced at the polls [precisely because of their of their anti-health care agenda](#), despite their last ditch false promises to protect people with pre-existing conditions, they went ahead and rammed through legislation designed to take away Wisconsinites’ coverage while *refusing to pass* legislation to protect those individuals with pre-existing conditions. 2.4 million Wisconsinites could lose their health insurance and Scott Walker and his band of phony cronies could not care less. This is [far from over.](#)”
