It's the 1990s, and an idealistic young conservative is forming a set of bold—and at times, politically contentious—ideas about the role of the federal government and our tax system. But as he'll learn as a member of Congress from Wisconsin, there is a reason tax reform hasn't happened in nearly 30 years. **This is the story of Paul Ryan and his relentless drive to pass the first tax reform law in a generation.**

It is a cause, and a career, that was decades in the making.
