WASHINGTON, D.C. - Wisconsin Congressman Sean Duffy, Chairman of the Financial Services Subcommittee on Housing & Insurance, today released the following statement following the House Natural Resources Committee advancing his legislation to delist the gray wolf. The Manage Our Wolves Act was passed out of the committee by a vote of 19-15.

“Wisconsin farmers are now one step closer to having the legal means to defend their livestock from gray wolves. I’d like to extend a big thank you to the members of the Natural Resources Committee who also agree that states should be the ones to responsibly manage their own gray wolf populations – not Washington bureaucrats.”
