This year marks 50 years since the Urban League movement began serving the Greater Madison Community. We will spend this year reflecting on our history, but also casting our vision for the future. To get things started, we have for the first time ever assembled a panel of ULGM leadership spanning five decades to share their reflections. The panel will conclude with remarks about our plans for the future by current President & CEO, Ruben L. Anthony, Jr. The panel will be moderated by former Interim CEO and current 50th Anniversary Chair, Noble Wray.
