[Madison, Wis.] – Scott Walker crisscrossed the state this past weekend to join folks at Flag Day parades and stand up for Wisconsin's farmers and their families at dairy breakfasts.

Governor Walker joined hard-working families this weekend to celebrate the American Flag, and what it stands for, and to stand up for Wisconsin's dairy industry. Just last week, Gov. Walker took his commitment to our state's dairy farmers to the next level by creating a task force that will help us create real solutions for farmers, processors and allied organizations. Gov. Walker is getting positive things done for communities all across our state – in prioritizing our dairy farming communities, the governor is once again proving his commitment to ensuring that every Wisconsin resident has the opportunity to win the 21st century.
