Women in Technology Wisconsin will feature 'Digital Transformation - Thinking Outside the Box' at their breakfast meeting on November 30th. Craig Dickman, founder and President of StageThree, and Elaine Stephens, VP Technology & Data Science at Breakthrough Fuels will share their thoughts and drive a dialog around where they see digital transformation going and the secrets to innovating in an ever-changing landscape.

The meeting will begin with registration and breakfast at 7:00 am, followed by WIT updates and featured speaker at 7:30. Registration for this session can be found at www.witwisconsin.com/events. Contact info@witwisconsin.com for more information about media coverage.

About Women in Technology Wisconsin: The mission of Women in Technology - Wisconsin (WIT) is to grow, attract, and retain women in technology-related careers. With programming designed for women in executive, senior, manager, and entry-level technology positions, WIT provides an opportunity for networking, exchanging of ideas, and personal and professional growth.
