States across the country are implementing legislation on medical and recreational marijuana use, and local ballot initiatives in Wisconsin show support for discussion

of the issue here. Join the EBHPP for a Capitol Briefing that aims to help inform this discussion in Wisconsin by taking a look at what we know (and don't know) about the health effects of cannabis, and a look at the implementation of these laws in other states.

Featuring presentations from...

Mike Queensland, JD

Senior Staff Attorney, Wisconsin Legislative Council

Mr. Queensland will provide a brief overview of current law in Wisconsin

Robert Wallace, MD, MSc

**Professor and Irene Ensminger Stecher Professor in Cancer Research,
University of Iowa College of Public Health**

Dr. Wallace will discuss the evidence on the health effects of cannabis, and his involvement in a 2017 [National Academies of Sciences, Engineering and Medicine report on this topic](#)

Karmen Hanson, MA

Behavioral Health Program Director, National Conference of State Legislatures

Ms. Hanson will discuss the [implementation of medical and recreational cannabis laws in other states](#), public health and public safety considerations, issues of revenue and taxation, and other considerations
