Named Ranking Member to the Science and Technology Committee

MADISON – Rep. Greta Neubauer (D-Racine) was appointed to six Assembly committees, including Science and Technology, Environment, Transportation, International Affairs and Commerce, Jobs and the Economy and Public Benefit Reform. Neubauer will serve as ranking member as she returns to Science and Technology for a second term.

“I look forward to working on new, innovative solutions to grow a sustainable economy and healthy families in Wisconsin. We need long-term plans that emphasize sustainable economic growth for our communities, and these committees are where that planning begins.

“I am so honored to lead my fellow Assembly Democrats with the Science and Technology Committee for the next two years,” Neubauer continued. “We need to work together to ensure effective oversight and adequate support for new technologies and industries as Wisconsin looks to grow family-supporting jobs in STEM and technology manufacturing.

“Each of these committees focuses on a different area where we can support local Wisconsin industries and families,” Neubauer concluded. “Let’s get to work!”
