MADISON – The Wisconsin Department of Transportation (DOT) released a list of immediate safety improvements to make on Hwy 15. The safety changes include:

- Refreshing pavement markings;
- Re-assessing traffic signal timings in Hortonville;
- Reevaluating signage in the corridor, including curve chevrons;
- Increasing law enforcement and speed monitoring efforts

Assembly Majority Leader Jim Steineke (R-Kaukauna) released the following statement

following the DOT's release of these plans:

“Having worked collaboratively with the DOT, local officials, and legislative colleagues, I am happy to see these proactive steps are being taken to promote safety for our drivers and vehicles. The release of these safety measures will have immediate and impactful effects in our community. As we continue to work in conjunction with DOT and local officials, I will continue advocating for ways to keep our roads safe.”
