RHINELANDER, WI – Surrounded by family, friends, and supporters, State Senator Tom Tiffany (R-Minocqua) formally announced his candidacy to represent the 7th District in the United States House of Representatives.

“When I was elected to the state legislature, Wisconsin had serious problems: budget deficits, high unemployment, businesses fleeing our state, and a deep pessimism. I asked voters to put their trust in me to deliver results. With like-minded women and men in the legislature, we made Wisconsin a better place to live, to work, and to raise a family. It wasn’t easy and tough choices had to be made. I am prepared to make those same tough decisions in Washington, D.C. for the people of Northern and Western Wisconsin.

“I don’t plan to go to Washington looking for a fight, but I can guarantee I will never back down from one. Now more than ever we need to stand up to preserve our freedoms and our bedrock values. As we all know, it’s a swamp out there and we need someone who won’t waver when it comes to doing what is right for Wisconsin.

“I’m running for Congress to be the ally President Trump needs to keep moving our country forward. He needs help to secure our borders, to stop the left’s obsessive march towards Socialism, to protect our 2nd Amendment rights, to protect the unborn, and to get the government off our backs so we can all prosper. He needs a proven conservative with a track record of getting things done.

“I believe I am that ally, and I am proud to announce my candidacy for Wisconsin’s 7th Congressional District. I look forward to running a positive campaign and talking to voters all across the district. I know if they put their trust in me, I will deliver results for Northern and Western Wisconsin.”
