“With the recent events surrounding the abortion issue in Virginia and New York, it has become clear what the endgame is for abortion advocates who support killing our unborn babies: Abortion through all nine months of pregnancy for any reason and, should the baby be born alive after a failed abortion, infanticide,” shared Wisconsin Right to Life Executive Director, Heather Weininger.

“Wisconsin Right to Life has worked for years to protect the most vulnerable. Wisconsin is only one election away from becoming New York, where the unborn, babies born alive after failed abortions, and their mothers literally have no protection.

“During the efforts to pass the Pain-Capable Unborn Child Protection Act, Sonya’s Law, and many other protective, pro-life laws, Wisconsin Right to Life worked with both Wisconsin State Senate and Wisconsin State Assembly members to ensure unborn children and their mothers were protected. During that time, we had a pro-life governor who signed this legislation into law. We no longer have a governor who will protect the lives of the unborn. Our children are at risk.

“Wisconsin Right to Life will continue to work with our pro-life leaders in Wisconsin’s Senate and Assembly to ensure all innocent lives are protected in Wisconsin. We know that those who want to expand the abortion industry and, in turn, their profits will stop at nothing to get what they want.

“We must do all we can to stand for life at every age, from conception until natural death.”
