Madison, Wis. – In response to a new wave of extreme bans on abortion, stripping away reproductive freedom and representing an all-out assault on abortion access, patients and allies are saying ENOUGH. Wisconsin-based community organizers are hosting a die-in and rally in solidarity with Alabama, Georgia, Missouri, Ohio, and all states fighting back against cruel abortion bans.

Here in Wisconsin, GOP leaders are threatening bodily autonomy, patient-physician relationships and health care delivery by passing a group of politically motivated anti-abortion bills. Abortion is healthcare. Abortion is life-saving and life-affirming. Abortion is a human right.

This is Trump's anti-choice movement; and it's terrifying, particularly for people of color and low-income populations who are most affected by these bans.

We will show up to speak out and fight back against this unconstitutional attempt to gut *Roe v. Wade*. Politicians shouldn't be making decisions best left to patients, their families, and their doctors.
