MADISON– The Department of Administration (DOA) announced that $3.0 million is now available to eligible school districts and libraries through Technology for Educational Achievement (**TEACH**) Grants. TEACH Grants assist school districts and libraries acquire the equipment and services necessary to build a modern infrastructure system to better teach and support Wisconsin students remotely and in the classroom.

"Now, more than ever, access to modern IT equipment and reliable technology infrastructure is critical to the success of all students," said DOA Secretary Joel Brennan. "This year's TEACH Grants will help communities throughout Wisconsin expand access at a critical time for our state and nation."

TEACH Grant funding can be used for infrastructure equipment such as access points, maintenance of internal connections, cabling, hotspots, LAN controllers, routers, switches, UPS/battery backup and wireless controllers. The grant can also support investments in infrastructure services, such as cyber security, network, and data assessments.

The program provides eligible school districts grants between $30,000 and $60,000. Eligible libraries can receive grants between $5,000 and $10,000. Lists of eligible libraries and school districts, as well as the maximum funding available to

them, can be found [HERE](#).

Eligible school districts and libraries can apply for TEACH grants online at the TEACH website at [teach.wi.gov](#). Grant applications must be submitted to DOA/TEACH by 11:59 p.m. on December 18, 2020. Late applications will not be considered.

For more information about the grant requirements and the application process, visit the TEACH Grant website [HERE](#).
