Wisconsin National Guard specimen collection teams' cumulative total gathered for COVID-19 testing surpassed 615,000 as teams continue to operate across Wisconsin supporting local health departments and the Wisconsin Department of Health Services with COVID-19 testing efforts.

Mobile specimen collection teams from the Wisconsin National Guard will continue operations across Wisconsin this week. They are supporting local health departments and the Wisconsin Department of Health Services effort to increase the state's COVID-19 testing capacity.

The teams, which are tailorable to meet the needs of a specific facility, are dispatched from a larger task force of several hundred Citizen Soldiers and Airmen. They have been establishing mobile testing sites since early April at locations ranging from correctional facilities, health clinics and institutional facilities, to private businesses, senior-living facilities, and community-based testing sites.

After collecting the specimens at each site, the test kits are sent to a lab for analysis, and individual citizens receive their results via a phone call from their local health department or a state call center within three-to-seven days following the test.

Wisconsin National Guard specimen collection sites operating the week of Oct. 12-Oct. 18 are listed below. Additional information on these testing sites and others is available at the [Wisconsin Department of Health Services website](#).

- **Brown County:** One team will gather specimens Oct. 13 at a Wisconsin Department of Veterans Affairs in Green Bay.
- **Burnett County:** One team will operate a community-based testing site Oct. 16 on the St. Croix Chippewa Indians of Wisconsin Reservation.
- **Chippewa County:** One team will gather specimens Oct. 12 at a Wisconsin Department of Veterans Affairs facility in Chippewa Falls and on Oct. 14 at the Stanley Correctional Institution.
- **Crawford County:** One team will operate a community-based testing site Oct. 12 at the Gays Mills Community Center.
- **Dane County:** Multiple teams established a community-based testing site May 11 at the Madison's Alliant Energy Center and has collected more than 220,000 specimens as of Oct. 12. This site typically is open Tuesday through Saturday.
- **Eau Claire County:** One team operates a regional community-based testing site at 6415 US Highway 12 in Eau Claire. The site is open each Monday, Friday and Saturday from Oct. 2 to Dec. 7 and has collected 480 specimens as of Oct. 12. A team will operate a community-based specimen collection site in Augusta each Wednesday from Oct. 14 to Dec. 9.
- **Jackson County:** One team will operate a community-based testing site each Wednesday in Black River Falls from Oct. 14 to Dec. 9.
- **Juneau County:** One team will gather specimens Oct. 15 at the New Lisbon Correctional Institution.
- **Kenosha County:** One team will operate a community-based testing site each Monday at the Kenosha County Jobs Center beginning Oct. 12 and continuing to Dec. 7. A second community-based testing site will operate each Friday in Bristol beginning Oct. 16 and continuing to Dec. 4.
- **La Crosse County:** One team will operate a community-based testing site Oct. 12 at the Health and Human Services Building in La Crosse.
- **Lincoln County:** One team will collect specimens Oct. 13 at two Wisconsin Department of Corrections facilities.
- **Milwaukee County:** Three teams established a community-based testing site May 11 at 2701 S. Chase Avenue (UMOS) and has collected nearly 107,000 specimens as of Oct. 12. 28. Two teams established a Milwaukee community-based collection site June 1 at Custer Stadium at 4300 W. Fairmount Avenue and has collected over 45,000 specimens as of Oct. 12. Both sites typically operate Monday through Saturday. Wisconsin National Guard specimen collection teams will assist with operating a community-based testing site at Miller Park beginning Oct. 19.

- **Ozaukee County:** One team will operate a community-based testing site Oct. 17 in Port Washington.
- **Richland County:** One team will operate a community-based testing site Oct. 15-16 at the Richland Center High School.
- **Rock County:** One team will operate a community-based testing site Oct. 12-16 at the Dawson Softball Complex in Janesville.
- **Sauk County:** One team will operate a community-based testing site Oct. 12 in Baraboo.
- **Sheboygan County:** A team will operate a community-based testing site each Wednesday and Friday from Oct. 14 to Dec. 9 at the Sheboygan County Fairgrounds.
- **Trempealeau County:** One team will operate a community-based testing site Oct. 16 in Independence.
- **Waukesha County:** One team will operate a community-based testing site Oct. 12, 14 and 16 at the Waukesha County Expo Center.
- **Washington County:** One team will operate a community-based testing site each Tuesday from Oct. 13 to Dec. 8 at the Washington County Fairgrounds.
- **Winnebago County:** One team operates a community-based testing site Sep. 1 to Dec. 31 at the Sunnyview Expo Center in Oshkosh and has collected over 23,000 specimens as of Oct. 12. One team will gather specimens Oct. 14-16 at the Oshkosh Correctional Institution.

Previously conducted missions include:

- **Adams County:** One team collected nearly 250 specimens June 2 at a community-based testing site at the Adams-Friendship High School in Adams. One team gathered nearly 130 specimens July 1 at a community-based testing site at the New Chester Fire Department in Grand Marsh. One team collected nearly 90 specimens at a community-based testing site Aug. 27 at Lake Area Christian School in Friendship. One team collected nearly 175 specimens at a community-based testing site Sep. 23 at the Adams Fire Department in Adams.
- **Ashland County:** One team gathered approximately 150 specimens May 7 at a community-based testing site at the Lake Superior Primary School in Ashland. One team collected over 325 specimens at a community-based testing site July 20 for the Ashland County community and Bad River Band of Lake Superior Chippewa at the Lake Superior Intermediate School in Ashland. One team gathered over 225 specimens Sep. 26 at a community-

based testing site on the Bad River Band of Lake Superior Chippewa reservation in Odanah.

- **Barron County:** One team collected 230 specimens at a community-based test site May 3-4 at the St. Croix Casino Campground in Turtle Lake. One team gathered nearly 225 specimens June 10-11 during site-based testing in Cumberland. One team gathered nearly 200 specimens July 27 at a food-processing facility in Cumberland.
- **Bayfield County:** One team collected 350 specimens June 11 at a community-based testing site on the Red Cliff Band of Lake Superior Chippewa Reservation at the Legendary Waters Casino near Bayfield. One team collected over 100 specimens June 17 at a community-based specimen collection site at the Civic Center in Drummond. One team collected over 200 specimens June 18 at a community-based testing site at the community center in Iron River. One team collected nearly 400 specimens at a community-based testing site July 10 and over 260 more on Aug. 7 at the Iron River Community Center in Iron River. One team gathered over 300 specimens Aug. 14 at a community-based testing site at the Cable Community Center in Cable. One team collected over 150 specimens Aug. 22 at a community-based testing site at the Red Cliff Community Health Center in Bayfield. One team collected over 200 specimens at a community-based testing site Sep. 18 in Washburn. One team gathered over 250 specimens at a community-based testing site Sep. 25 at the Iron River Community Center. One team gathered over 360 specimens at a community-based testing site Oct. 10 in conjunction with the Red Cliff Nation at the Community Health Center in Bayfield.
- **Brown County:** One team collected 738 specimens April 28-May 2 at a food processing facility in Green Bay. Several teams began operations at the Resch Center April 30 for focused-community testing for select businesses and their families. The Resch Center site then supported community-based testing May 4-22 and nearly 8,500 specimens were collected. Another team collected over 4,500 specimens May 6-22 at a community-based testing site at Casa ALBA in Green Bay. One team collected 20 specimens June 10 at a Wisconsin Department of Veterans Affairs facility in Green Bay. One team gathered nearly 1,400 specimens June 9-12 at the Green Bay Correctional Institute. One team collected over 1,100 specimens Aug. 18-19 and nearly 940 Sep. 10-11 at the Green Bay Correctional Institution.
- **Buffalo County:** Community-based testing in Alma concluded May 1, where a National Guard team collected nearly 200 specimens.
- **Burnett County:** One team collected 130 specimens May 5 at a community-

based testing site in Burnett County.

- **Calumet County:** One team collected over 1,300 specimens Aug. 11-13 at a community-based testing site at the Calumet County Fairgrounds in Chilton.
- **Chippewa County:** One team collected 20 specimens May 20 at a long-term care facility in Chippewa Falls. One team gathered nearly 50 specimens June 9 at a Wisconsin Department of Veterans Affairs facility in Chippewa Falls. One team collected over 130 specimens June 11 at a Wisconsin Department of Health Services facility in Chippewa Falls. One team gathered nearly 50 specimens June 16 at the Chippewa County Jail in Chippewa Falls. One team collect over 550 specimens June 25-26 at the Chippewa Valley Correctional Center. One team gathered over 1,800 specimens July 6-9 at the Stanley Correctional Institution. One team gathered over 125 specimens July 20 at a Wisconsin Department of Health Services facility in Chippewa Falls. A second team collected over 430 specimens July 20 at a community-based testing site at the Northern Wisconsin Fairgrounds in Chippewa Falls. One team collected over 230 specimens Aug. 27 at the Stanley Correctional Institution. A team collected over 100 specimens Sep. 15 at a Wisconsin Department of Health Services facility in Chippewa Falls, nearly 300 more Sep. 16 at a community-based testing site at the Northern Wisconsin Fairgrounds in Chippewa Falls, and over 100 additional Sep. 17 at Chippewa Valley Correctional Institution.
- **Clark County:** One team gathered nearly 150 specimens May 13 at a community-based testing site at Thorp High School in Thorp. One team collected nearly 150 specimens May 20 at a long-term care facility in Colby.
- **Columbia County:** One team collected over 75 specimens June 12 during site-based testing in Cambria. One team gathered over 1,000 specimens June 15-17 at the Columbia Correctional Institution. One team collected nearly 60 specimens on June 20 during site-based testing in Cambria. One team gather nearly 200 specimens Aug. 27 at the Columbia Correctional Institution. One team gathered nearly 300 specimens at a community-based testing site Sep. 18 in Wyocena. One team gathered over 260 specimens Sep. 28 and nearly 800 more Oct. 2 at the Columbia Correctional Institution.
- **Crawford County:** One team collected nearly 300 specimens May 5 at a factory in Prairie Du Chien. One team collected over 220 specimens May 20 at a long-term care facility in Prairie du Chien. One team gathered over 275 specimens at a community-based testing site June 12 at Prairie du Chien High School. One team gathered nearly 700 specimens June 16-17 at the Prairie du Chien Correctional Institution. One team collected nearly 120 specimens Aug. 14 at a community-based testing site at the Seneca Town Hall in Seneca. One

team gathered over 125 specimens Aug. 25 and another 109 Oct. 8 at the Prairie du Chien Correctional Institution.

- **Dane County:** One team tested more than 1,000 staff and inmates April 24-27 at the Dane County Jail in Madison. One team collected over 300 specimens May 26 at a long-term care facility in Verona. One team collected over 730 specimens June 4-5 at a Wisconsin Department of Health Services facility in Madison. One team gathered over 900 specimens June 10-11 at a Wisconsin Department of Health Services facility in Mendota. Two teams gathered 280 total specimens June 22 at the Oregon Correctional Center, Grow Academy Youth Facility and Thompson Correctional Center. One team collect over 900 specimens June 23-24 at the Oak Hill Correctional Institute. One team gathered nearly 1,600 specimens July 14-17 at two Wisconsin Department of Health Services facilities in Madison. One team collected over 750 specimens Aug. 26-27 at a Wisconsin Department of Health Services facility in Madison. One team gathered nearly 900 specimens Aug. 31 to Sep. 1 at a Wisconsin Department of Health Services facility in Madison. A team collected a combined 242 specimens Sep. 17 at the Wisconsin Department of Corrections' Grow Academy Youth Facility, the Oak Hill Correctional Institution, the Oregon Correctional Center, and the Thompson Correctional Center. One team gathered over 750 specimens Oct. 7-8 at a Wisconsin Department of Health Services facility in Madison.
- **Dodge County:** One team collected over 400 specimens May 8-9 at a food processing facility in Beaver Dam. Two teams collected over 1,500 specimens May 26-28 at the Waupun Correctional Facility. Two teams collected over 1,900 specimens May 26-30 at the Dodge County Department of Corrections. One team collected over 300 specimens June 1 at the John C. Burke Correctional Center. One team gathered over 75 specimens June 2 in Clyman. Two teams collected over 1,600 specimens June 9-10 at the Fox Lake Correctional Institute. One team collected nearly 500 specimens June 15-16 at the Dodge County Correctional Institution and one team gather nearly 150 specimens June 16 at the Waupun Correctional Institution. One team collected over 100 specimens during site-based testing June 30 to July 1 in Clyman. One team gathered nearly 500 specimens July 11 at a community-based testing site at Watertown High School. One team gathered nearly 50 specimens July 20 during facility-based testing in Clyman. One team gathered over 200 specimens July 23 at the Waupun Correctional Institution. One team collected over 350 specimens July 29 at the Dodge Correctional Institution and gathered nearly 600 more at a community-based testing site July 31 to Aug. 1 in

Mayville. One team collected over 250 specimens Aug. 20 at the Fox Lake Correctional Institution and another 700 Aug. 21-22 at a community-based testing site at Waupun High School in Waupun. One team collected more than 1,600 specimens Sep. 1-3 at the Dodge County Correctional Institution. A team gathered nearly 1,500 specimens Sep. 21-22 at the Dodge Correctional Institution and nearly 60 more Sep. 24 at the John Burke Correctional Center. One team collected nearly 650 specimens at a community-based testing site Sep. 29-30 in Reeseville and another 238 specimens Sep. 30 at the Waupun Correctional Institution. One team gathered over 560 specimens Oct. 5 at the Dodge Correctional Institution and nearly 250 more at Oct. 8 at the Fox Lake Correctional Institution.

- **Door County:** One team collected over 350 specimens June 2-4 at a community-based testing site at the Door County Justice Center in Sturgeon Bay.
- **Douglas County:** One team supported a community-based testing site May 6 in Solon Springs and collected more than 170 specimens. One team collected over 100 specimens July 9 at the Gordon Correctional Center. One team collected over 270 specimens July 29 at a community-based testing site at the Superior Middle School in Superior and over 200 more July 30 in Solon Springs. A team gathered nearly 80 specimens Sep. 24 at the Gordon Correctional Center.
- **Dunn County:** One team gathered nearly 50 specimens at a community-based testing site Aug. 24 at the Tiffany Creek Elementary School in Boyceville.
- **Eau Claire County:** One team collected over 500 specimens May 10-11 at a community-based testing site at Chippewa Valley Technical College in Eau Claire. One team collected nearly 200 specimens July 10 at a group home in Eau Claire. One team collected 80 specimens Aug. 11 at the Eau Claire County Jail. One team collected 75 specimens at a community-based testing site Sep. 30 at the Augusta Community Center in Augusta.
- **Florence County:** One team gathered 209 specimens May 12 at a community-based testing site in Florence. One team collected nearly 100 specimens June 23 at a community-based testing site at the Natural Resource Center in Florence. One team collected nearly 100 specimens at a community-based testing site July 27 at the Natural Resource Center in Florence. One team returned to Florence Oct. 9 and gathered nearly 125 specimens at a community-based testing site.
- **Fond du Lac County:** One team collected nearly 50 specimens May 16 during

site-based specimen collection in Fairwater. Two teams collected over 1,100 specimens May 28-30 at the Taycheedah Correctional Facility. One team collected 80 specimens June 8 during site-based specimen collection in Oakfield. One team collected nearly 200 specimens during site-based testing June 12 in Ripon. One team gathered over 100 specimens June 16 during site-based testing in Oakfield. One team collected 120 specimens July 16-17 during facility-based specimen collection in Oakfield. One team collected over 30 specimens July 21 during facility-based testing in Brandon. One team gathered over 200 specimens Aug. 19 at the Taycheedah Correctional Institution. Teams collected nearly 1,600 specimens during site-based testing in Fond du Lac. One team collected 220 specimens Oct. 8 at the Taycheedah Correctional Institution.

- **Forest County:** One team collected nearly 40 specimens June 22 at a community-based testing site at the Crandon School District in Crandon. One team returned to Crandon Sep. 19 and gathered nearly 200 specimens.
- **Grant County:** One team tested more than 270 staff and residents April 25 at the Orchard Manor senior living facility in Lancaster. Another team collected more than 230 specimens May 4 at a factory in Platteville. One team collected nearly 400 specimens June 17 at a community-based testing site on the UW-Platteville campus in Platteville. One team collected nearly 650 specimens June 18-19 at the Wisconsin Secure Program Facility. One team collected over 300 specimens June 29 at a community-based testing site at Kronshage Park in Boscobel. One team gathered over 560 specimens July 8 at a community-based testing site at the Grant County Fairgrounds in Lancaster. One team collected nearly 250 specimens July 15 at a community-based testing site at Riverside Park in Cassville. One team collected 350 specimens July 22 at a community-based testing site in Cuba City. One team collected over 220 specimens July 31 at a community-based testing site at Riverdale School District in Muscoda. One team collected over 200 specimens at a community-based specimen collection site Aug. 12 at the Grant County Fairgrounds in Lancaster. One team gathered nearly 150 specimens Aug. 20 at the Wisconsin Secure Program Facility and another 131 Aug. 21 at a community-based testing site in Hazel Green. One team gathered over 100 specimens at a community-based testing site Aug. 26 at Southwest Technical College in Fennimore. One team gathered over 125 specimens at a community-based testing site Sep. 2 in Boscobel. One team collected nearly 300 specimens at a community-based testing site Sep. 10 at the Grant County Fairgrounds in Lancaster. One team gathered nearly 1,150 specimens Sep. 16-17 at a community-based testing site on the University of

Wisconsin-Platteville campus. One team collected nearly 300 specimens at a community-based testing site Sep. 23 at the Grant County Fairgrounds. One team collected nearly 775 specimens at a community-based testing site Sep. 28-29 at the UW-Platteville campus. One team collected nearly 350 specimens at a community-based testing site Oct. 7 at the Southwestern Technical College in Fennimore and nearly 150 more Oct. 8 at the Wisconsin Secure Detention Program Facility.

- **Green County:** One team collected over 150 specimens May 26 at a long-term care facility in Monroe. One team collected over 200 specimens June 17 at a senior-living facility in New Glarus. One team gathered nearly 150 specimens July 21 at a long-term care facility in New Glarus.
- **Green Lake County:** One team collected nearly 150 specimens June 5 during site-based testing in Markesan.
- **Iron County:** One team collected over 250 specimens July 23 at a community-based testing site at Hurley High School and another 235 specimens July 24 at a community-based testing at the DNR Ranger Station in Mercer.
- **Jackson County:** One team collected over 170 specimens May 19 at a community-based testing site at the Jackson County Fairgrounds in Black River Falls. One team collected nearly 150 specimens June 25 at the Black River Correctional Center. One team gathered over 1,200 specimens June 29 to July 1 at the Jackson Correctional Institution. One team collected over 200 specimens Sep. 10 at the Jackson Correctional Institution. One team gathered nearly 20 specimens Oct. 1 at the Black River Falls Correctional Center.
- **Jefferson County:** One team collected over 1,300 specimens July 22-25 and another 400 from Aug. 28-29 at a community-based testing site at the Jefferson County Fairgrounds in Jefferson. One team collected 545 specimens Sep. 11-12 and another 642 Sep. 25-26 at a community-based testing site at the Jefferson County Fair Park. One team gathered nearly 1,000 specimens at a community-based testing site Oct. 9-10 at Jefferson County Fair Park.
- **Juneau County:** One team collected nearly 40 specimens at a facility-based testing site. One team collected nearly 190 specimens June 8 at a community-based specimen collection site at the high school in Mauston. One team collected over 725 specimens June 10-11 at a Wisconsin Department of Health Services facility in Mauston. One team collected over 1,200 specimens June 29 to July 1 at the New Lisbon Correctional Center. One team collected over 400 specimens July 21-22 at a Wisconsin Department of Health Services facility in Mauston. One team collected nearly 400 specimens July 22 at a community-based testing site at Olson Middle School in Mauston. One team gathered over

1,200 specimens Aug. 27-28 at the New Lisbon Correctional Institution. One team collected over 250 specimens at a community-based testing site Sep. 19 at Veterans Memorial Park in Mauston. A team gathered over 450 specimens Sep. 22-23 at a Wisconsin Department of Health Services facility in Mauston.

- **Kenosha County:** Teams gathered more than 650 specimens April 28-29 at the Kenosha County Pre-trial facility and Kenosha County Detention Center. One team tested more than 130 individuals May 2 at a Pleasant Prairie meat processing facility. Another team collected more than 400 specimens May 7 at a meat packing facility in Kenosha. Two teams collected nearly 850 specimens June 1-6 at a community-based testing site at Kenosha's Central High School. One team collected nearly 1,100 specimens June 4-6 at a community-based testing site at Kenosha's Tremper High School. One team collected over 70 specimens at a community-based testing site June 12 at Kenosha's Central High School. One team collected nearly 120 specimens June 15 at the Kenosha Correctional Center. One team gathered over nearly 1,200 specimens at a community-based testing June 23-24 at Kenosha's Municipal Building. One team collected 2,000 specimens July 16-18 at a community-based testing site at the UW-Parkside campus in Somers. Teams gathered nearly 700 specimens July 21-22 at the Kenosha County Pre-Trial Facility and Kenosha County Detention Center. One team collected nearly 1,500 specimens Aug. 3-5 at a community-based specimen collection site at Brass Community School in Kenosha. A team gathered nearly 20 specimens Sep. 24 at the Kenosha Correctional Center. One team gathered over 2,300 specimens at a community-based testing site Oct. 2-6 at the Kenosha County Job Center.
- **La Crosse County:** One team collected over 300 specimens May 21 at a community-based testing site at the Omni Center in Onalaska. One team established a community-based specimen collection site June 8 at Western Technical College in La Crosse and collected over 280 specimens. One team gathered nearly 400 specimens July 10 at a community-based testing site at Logan High School in La Crosse. One team collected 250 specimens at a community-based testing site July 24 at the Omni Center in Onalaska. One team gathered over 400 specimens Aug. 3 at a community-based specimen collection site at Logan High School in La Crosse. One team collected nearly 350 specimens Aug. 17 at a community-based testing site at the La Crosse County Health and Human Services Building in La Crosse. One team collected 300 specimens at a community-based testing site Aug. 24 at the La Crosse County Health and Human Services Building in La Crosse. One team collected over 300 specimens Aug. 31, over 450 more Sep. 14, and over 500 more Sep.

21 at a community-based testing site at the La Crosse County Health and Human Services Building. One team collected over 250 specimens Sep. 28 and over 230 more Oct. 5 at a community-based testing site Sep. 28 at the County Health and Human Services Building.

- **Lafayette County:** One team collected over 125 specimens May 29 at a long-term care facility in Darlington. One team gathered over 100 specimens June 23 at a food processing facility in Darlington. One team collected over 200 specimens July 20 at a community-based testing site at the Lafayette County Multi-purpose Building in Darlington. One team collected more than 80 specimens Aug. 28-31 at a food processing facility in Darlington. One team collected over 100 specimens at a community-based testing site Sep. 16 in Darlington.
- **Langlade County:** One team collected over 175 specimens June 4-5 at a community-based testing site at Antigo's Langlade County Fairgrounds.
- **Lincoln County:** One team collected over 70 specimens May 18 at a senior living facility in Tomahawk. One team collected 100 specimens June 11 at a community-based testing site at the Merrill Festival Grounds in Merrill. One team collected over 450 specimens June 29 to July 1 at the Lincoln Hills School and the McNaughton Correctional Center. One team collected nearly 125 specimens Aug. 14 at a community-based testing site at the Merrill Festival Grounds in Merrill. One team gathered over 125 specimens Sep. 10 at the Wisconsin Department of Corrections' Lincoln Hills School. One team collected nearly 250 specimens at a community-based testing site Sep. 18 at the Merrill Festival Grounds. One team on Oct. 1 gathered 250 specimens at a community-based testing site in Tomahawk and another 18 at the McNaughton Correctional Center. One team gathered nearly 40 specimens Oct. 6 at the Lincoln County Jail.
- **Manitowoc County:** One team gathered over 450 specimens May 21-22 at a community-based testing site at the Manitowoc County Expo Grounds in Manitowoc.
- **Marathon County:** One team collected over 220 specimens May 19 at a community-based testing site at Wausau's North Central Technical College. One team collected over 250 specimens May 29 at a community-based testing site at the Abbotsford Junior-Senior High School in Abbotsford. One team collected over 400 specimens July 9-10 at a community-based testing site at the Dollar General Store parking lot (1011 E. Spruce Street) in Abbotsford. One team collected nearly 550 specimens Aug. 7 at a community-based testing site at the Northcentral Technical College in

Wausau. One team gathered over 700 specimens at a community-based testing site Oct. 2 at the North Central Technical College in Wausau.

- **Marinette County:** One team gathered nearly 770 specimens May 12-14 at a community-based testing site in Crivitz.
- **Menominee County:** One team collected over 1,050 specimens May 15-19 at a community-based testing site on the Menomonee Tribal Reservation at the Menominee Department of Transit Services in Keshena.
- **Milwaukee County:** One team tested nearly 1,000 staff and inmates at the Milwaukee County House of Corrections, and a second team completed over 500 tests at a local meat processing facility April 28. A third team collected over 450 specimens May 4 at a food processing facility in Milwaukee. One team collected over 100 specimens May 8 at a Milwaukee meat-processing facility. One team collected over 160 specimens May 12 at the Felmer Chaney and Marshall Sherrer Department of Corrections facilities. One team collected over 100 specimens May 18 at the Department of Corrections Women's Center in Milwaukee. One team collecting nearly 1,000 specimens May 19-21 at the Milwaukee Secure Detention Center. One team collected over 400 specimens Apr. 20 to May 22 at two Milwaukee health clinics. Three teams collected 8,305 specimens May 11-23 at a community-based specimen collection site at 5760 W. Capitol Drive (Midtown). One team collected 19 specimens May 27 at a long-term care facility in Franklin. One team collected over 1,000 specimens May 29-June 1 at the Milwaukee Criminal Justice Facility. One team collected over 820 specimens June 4-6 at a community-based specimen collection site at the Cudahy Water Utility in Cudahy. One team collected over 930 specimens June 5-7 at the Milwaukee County House of Corrections. One team collected over 50 specimens June 8 at a long-term care facility in Shorewood. One team collected over 4,200 specimens July 6-15 at a community-based testing site at Nicolet High School in Glendale. One team collected over 230 specimens July 22 at the Milwaukee Secure Detention Facility. One team collected nearly 800 specimens at a community-based testing site July 31 to Aug. 1 at Greendale High School in Greendale. One team collected nearly 60 specimens Aug. 10 at the Felmer O. Chaney Correctional Center and nearly 20 more Aug. 13 at the Marshall Sherrer Correctional Center. One team collected over 1,100 specimens Aug. 17-19 at a community-based testing site at Wisconsin State Fair Park in West Allis. One team gathered nearly 90 specimens Aug. 26 at the Milwaukee Women's Correctional Center. A team gathered nearly 250 specimens Oct. 1 at the Milwaukee Secure Detention Center.
- **Monroe County:** One team collected 300 specimens May 22 at a long-term

care facility in Sparta. One team collected over 50 specimens May 26 at the Wisconsin National Guard's Challenge Academy at Ft. McCoy. One team gathered nearly 125 specimens June 19 at a senior-care facility in Sparta. One team gathered nearly 125 specimens June 26 at a senior-care facility in Sparta. One team collected over 275 specimens June 30 at a community-based testing site at the National Guard Armory in Tomah. One team collected over 120 specimens July 13 at a long-term care facility in Sparta. One team collected over 50 specimens July 17 at the Wisconsin National Guard Challenge Academy. One team gathered over 100 specimens July 23 at the Wisconsin National Guard Challenge Academy. One team collected nearly 250 specimens July 30 at a community-based testing site at the Tomah National Guard Armory. One team collected over 30 specimens during facility-based testing Sep. 11 in Monroe County. One team collected nearly 250 specimens at a community-based testing site Oct. 2 at the Tomah National Guard Armory.

As of Oct. 5, Wisconsin National Guard teams have collected 615,167 specimens statewide.

In addition, approximately 30 troops are [working at a call center](#) that informs people of their COVID-19 test results.

The Wisconsin National Guard has fulfilled a variety of roles across the state since its response to the COVID-19 pandemic began after a March 12 public health emergency declaration from Gov. Tony Evers.

Wisconsin National Guard [conducted a warehousing mission](#) March 24 to June 12 where approximately 15 Citizen Soldiers assisted the Wisconsin Department of Health Services at a state warehouse receive personal protective equipment (PPE) shipments from around the state, repackaged them, and redistributed them to areas in need.

A team of approximately 15 troops served as medical and administrative staff at a state-run voluntary [self-isolation facility in Milwaukee](#) from March 31 until June 7. A

second team supported a Milwaukee County-run self-isolation facility from March 30 to June 14. A third team supported a state-run voluntary self-isolation facility in Madison from April 2 to May 27.

Meanwhile a team of Guard members assisted the Dane County Coroner's Office with [mortuary affairs operations](#) from April 14 until June 12.

Other missions completed by the Wisconsin National Guard since the state's response began in March include when a team of six medics augmented staff for three days at a [senior living facility in Grafton](#) after a COVID-19 outbreak resulted in a temporary staffing shortage.

More than 2,400 Citizen Soldiers and Airmen mobilized to support the Wisconsin Elections Commission during the [April 7 election](#), where they served as poll workers across 71 of Wisconsin's 72 counties. Guard troops also procured and distributed hand sanitizer, wipes, spray bottles, and PPE to polling sites statewide in advance of the election.

Another 160 Guard members served on State Active Duty as poll workers during the [May 12 special election](#) in Wisconsin's 7th Congressional District.

Nearly 700 Guard members served on State Active Duty as poll workers during the [Aug. 11 statewide primary election](#).

Guard members also transported a group of Wisconsin citizens [returning from a cruise ship](#) with confirmed COVID-19 cases back to their homes in mid-March after a weeks-long ordeal.

All told, over 700 Citizen Soldiers and Airmen from the Wisconsin National Guard are currently serving in direct support of the state's response to COVID-19 in a variety of statuses.
