MADISON, Wis. – The Village of Cambria is an applicant for funding through the Wisconsin Department of Natural Resources Safe Drinking Water Loan Program to address deficiencies in its public drinking water system. The projects primarily include the installation of a new well, well building and connecting lines.

Activities related to this project are minor actions under Chapter NR 150, Wis. Admin. Code, for which no environmental analysis is required; however, in accordance with the SDWLP federal requirement 40 C.F.R. §35.3580, an environmental review must be conducted prior to funding this project. The SDWLP has determined that the project will not result in significant adverse environmental effects, and no further environmental review or analysis is needed before proceeding with funding the project.

The department is soliciting public comments regarding this decision and the potential environmental impacts of this project. Written or verbal comments are encouraged. Provide comments to Kevin Olson, Community Financial Assistance, Department of Natural Resources, CF/2 101 S Webster St. PO Box 7921, Madison WI 53707, 608-266-9955 by July 6, 2020.

Based on the comments received, the department may prepare an environmental analysis before proceeding with the funding process. The analysis would summarize the Department of Natural Resources' consideration of the impacts of the project and reasonable alternatives.
