MADISON — Gov. Tony Evers today submitted a request to the U.S. Small Business Administration (SBA) for Economic Injury Disaster Loan assistance for small Wisconsin businesses and private, non-profit organizations to help alleviate the economic impacts of the COVID-19 outbreak. Gov. Evers request to SBA can be found [here](#).

“Social distancing and self-isolation are critical steps in reducing and preventing the spread of this virus in our communities, but it comes at an economic cost to our local businesses,” said Gov. Evers. “The loan assistance from SBA will help alleviate some of the financial burden and stress on our small businesses during this public health crisis. We will continue to work with our federal partners, state officials, and stakeholders to ensure we are improving public safety and health while protecting our state economy.”

Surveys of businesses over the past several days, as well as inquiries into our Joint Incident Command, illustrate that the COVID-19 outbreak has had a significant impact on a variety of businesses within Wisconsin, most notably hospitality, event hosting and support, and small retail businesses dependent upon daily traffic. A survey of these affected businesses was conducted to determine the economic impact of their losses for the disaster period as compared to the same period in the preceding year. Based upon these surveys, five Wisconsin businesses were named: Kobussen Buses Ltd., Country Kitchen Café, Common Man Tap & Table, Kugels Cheese Mart, and Earth Rider Brewery.

On Thurs., March 12, 2020, the governor signed [Executive Order #72](#) that directs DHS to take all necessary and appropriate measures to prevent and respond to incidences of COVID-19. It allows DHS to purchase, store, or distribute appropriate medications, regardless of insurance or other health coverage, as needed to respond to the emergency. It also authorizes state funds to support local health departments with costs related to isolation and quarantine, as well as the use of the Wisconsin National Guard.

Decisions about the implementation of other community measures will be made by state and local officials based on CDC and DHS guidance, as well as the scope of the outbreak. People should follow simple steps to prevent illness and avoid exposure to this virus including:

- Frequent and thorough hand washing with soap and water;
- Covering coughs and sneezes;
- Avoiding touching your face;
- Staying home when sick.

This is a rapidly evolving situation and we encourage you and the public to frequently monitor the [DHS website for updates](#), and to follow @DHSWI on [Facebook](#) and [Twitter](#), or dhs.wi on [Instagram](#). Additional information can be found on the [CDC website](#).
