MADISON, WI – The MyVote Wisconsin website is experiencing problems with address lookup for polling places this morning. Voters and clerks should use our backup service, <https://www.gettothepolls.com/>, while we fix the problem.

The Wisconsin Elections Commission provides official polling place data to Get to the Polls, which is run by the [Voting Information Project \(VIP\)](#), a partnership of Democracy Works and the states to provide official information to voters about where to vote and what's on their ballots where they look for it most—online. Having Get to the Polls as a backup is part of WEC's contingency plan. We provide this information to VIP every election.
