(MADISON) – State Senator Patty Schachtner (D-Somerset) issued the following statement in response to Governor Tony Evers’ State of the State Address:

“Tonight, Governor Evers laid out an agenda that will strengthen Wisconsin’s families and create an economy that works for all of us. From making medications more affordable to closing the dark store loophole, this agenda will keep more of your money in your pocketbook.

Alongside Governor Evers, I have spent this session working with colleagues from both sides of the aisle on legislation that will address teen vaping, protect clean water, expand mental healthcare access, and support our law enforcement. I am committed to continuing to fight for our rural communities in Northwestern Wisconsin and I am proud to have a Governor that will do the same.”
