(WISCONSIN) — Today, Democratic Party of Wisconsin spokesperson Philip Shulman released a statement on the most recent Bureau of Labor Statistics unemployment numbers that showed Trump's disastrous response to the COVID-19 pandemic is continuing to crush Wisconsinites and Americans everywhere:

"Today's BLS numbers continue to show that Donald Trump's failed response to the COVID-19 pandemic — from taking the word of China over our own intelligence community, to advocating for less testing, to encouraging people not to wear masks, is preventing a full recovery as millions of families still bear the brunt of historic unemployment numbers. Wisconsin families are suffering simply because Trump cares more about what he looks like on TV than their livelihoods and wellbeing. With Trump in office this pain is going to get worse before it gets better, and that's why we so desperately need to elect Joe Biden our next president."
