[Madison, WI] – Following tonight’s first presidential debate, the Republican Party of Wisconsin released the following statement from Chairman Andrew Hitt:

“The contrast from tonight’s debate couldn’t be more clear — President Trump is working to make America Great Again. Joe Biden is a failed career politician who is responsible for shipping millions of jobs overseas and raising taxes. The president has done more in 47 months than Biden did in 47 years.

“Biden continues to duck media questions on important issues raised by the radical left like packing the courts and rigging the Senate. How can the American people expect Joe Biden to stand up and lead on the global stage when he won’t even stand up to the radicals in his own party?

“President Trump is leading the Great American Comeback. We’ve seen millions of jobs added nationwide in the last few months. He’s moving to add another justice to the United States Supreme Court that will uphold the Constitution and follow the rule of law. The American people need four more years of President Donald J. Trump.”
