Common Sense has arrived.

Declaring that Wisconsinites deserve a limited government that works, Common Sense Wisconsin formally unveiled the outline for its 3E Agenda for the current session of the Wisconsin legislature.

“We support efficient, effective government policies that encourage, cultivate, and promote a healthy economy and society,” said CS Wisconsin, Inc. Board Member Jason Plante. “Government should not be big, but it should work.”

The 3 E agenda includes.

## 1. Efficiencies

We strive to improve access to and delivery of services aimed at improving the quality of life for Wisconsin residents.

## 2. Education reform

A foundational element of a healthy society is a strong educational environment that maximizes parental involvement and learning options. Wisconsin should invest in students, not systems. Our laws and regulations should foster innovation and reward success.

## 3. Election integrity

Wisconsinites must have faith in the process by which they elect their representatives. We neither accept baseless accusations of fraud, nor the willful refusal of regulatory agencies to enforce Constitutionally-sound election laws.

“These are the principles that will guide our efforts,” said Plante. “We will add specific policy ideas, produce research reports, and name an executive director over the next few weeks.”

CS Wisconsin, Inc. has launched Common Sense Wisconsin as a platform for advancing policy ideas to increase the efficacy of Wisconsin government.
