The Department of Health Services (DHS) announced today a newsletter the public can sign up for to get direct information about the COVID-19 response and vaccine rollout. Every Friday, a COVID-19 update newsletter will be sent via email to people who sign up to receive it. [Registration](#) is now open, and archived copies of the weekly newsletter will also be available.

“Throughout this pandemic, we have remained committed to keeping the residents of Wisconsin as informed as possible,” said Secretary-designee Andrea Palm. “The more quality information we have, the more effective we can be in making healthy and safe choices. That is why we have regularly updated data dashboards and science-based guidance on our website, and it is also why we want to add a weekly newsletter to our communications toolbox.”
